CONTINENTAL LINE.
THE INVALID REGIMENT.
COL. LEWIS NICOLA.

JUNE 20, 1777—1783. (a)

THE INVALID REGIMENT. (a)

When Philadelphia was threatened in the fall of 1776, and all her able-bodied citizens were enrolled in the militia, the Council of Safety of Pennsylvania, always happy in expedients, resolved to form a home guard of all such persons as were not fit to march with the militia, and on the 2d of December, appointed Lewis Nicola (who had been Barrack-Master since the 20th of April) Town Major, and directed companies to be formed to guard the powder magazine and to patrol the streets, for which they were to receive Continental pay. This office he held in connection, subsequently, with that of colonel of the Invalid regiment, until he was dismissed from the service of the State as Town Major, February 5, 1782. with the thanks of the Executive Council; there being no further duty for such an officer as Town Major. He was a faithful, competent officer, and the Archives teem with his suggestions for the good of the public service, and his correspondence, beginning with his plan for the defense of the Delaware, as early as July 6, 1775.* It was Major Nicola who formed and offered to Congress the plan for raising a regiment of invalids, which was not only to be a retreat for those who suffered in the service, but also a recruiting corps and military school.—Pa. Arch., O. S. vol. vii, page 255. In April, 1779, by the directions of Gen. Wayne, with the approval of the President and Board of War, the regiment was appointed to recruit for the Pennsylvania Line, in Philadelphia and its neighborhood.

The following resolutions relate to its establishment:

"On Friday, June 23, 1777, Congress took into consideration the report of the Board of War, of the 21st of April last; whereupon,

"Resolved, That a corps of invalids be formed, consisting of eight companies; each company to have one captain, two lieutenants, two ensigns, five sergeants, six corporals, two drum-

*Note.—Col. Nicola, unfortunately, pilloried his own memory by one suggestion that does not come within this category. It was he that proposed to Gen. Washington that he should take title of King, which drew from the latter a letter vivid with indignation and scorching rebuke—Lossing, vol. i, 673.

mers, two fifers, and one hundred men. This corps to be employed in garrison, and for guards in cities and other places where magazines or arsenals or hospitals are placed; as also, to serve as a military school for young gentlemen, previous to their being appointed to marching regiments; for which purpose, all the subaltern officers, when off duty, shall be obliged to attend a mathematical school, appointed for the purpose, to learn geometry, arithmetic, vulgar and decimal fractions, and the extraction of roots; and that the officers of this corps shall be obliged to contribute one day's pay in every month, and stoppages shall be made of it accordingly, for the purpose of purchasing a regimental library of the most approved authors on tactics and the *petite guerre*. That some officers from this corps be constantly employed in the recruiting service in the neighborhood of the places they shall be stationed in; that all recruits so raised, shall be brought into the corps and drilled, and afterwards drafted into other regiments as occasion shall require.

"Congress proceeded to the election of a colonel of the said corps of invalids, and the ballots being taken. Lewis Nicola, Esq., was elected.

"On Wednesday, July 16, 1777, Congress took into consideration the report of the Board of War, of the 23d of June last: whereupon,

"Resolved, That for carrying into execution the resolve respecting Col. Nicola's corps of invalids, the following plans for raising one company, be adopted for raising the whole of the said corps:

"1. That the director-general of the Continental hospital be desired to give directions to the physicians and surgeons in the different departments, at a reasonable distance from Philadelphia, that, before they discharge any sergeants, corporals, or private men from the hospitals, as unfit for service, they consider whether such men are actually, or likely soon to be, capable of doing garrison duty; and if thought so, to mention it in the discharge, that they may not be entirely discharged from the service but transferred from the regiment to which they actually belong, to that of invalids; and in case such men are at a distance from their respective regiments, that the director or steward of each hospital send such men to Philadelphia, in the best manner circumstances will admit.

"2. That notice be sent by the Board of War, to the generals commanding the armies, of the raising a corps of invalids, and they be desired to give orders to the officers commanding

regiments, that in case they have any sergeants, corporals, drummers, or private men, deemed incapable of doing field duty such men be examined by the director of the hospital or some other physician or surgeon, and if judged fit for garrison duty, that they be not discharged but transferred to the invalid corps, and sent to Philadelphia as soon as possible. Men having only one leg or one arm each, if otherwise capable of doing garrison duty to be deemed proper recruits for this corps.

"3. That the following advertisement be published in the several newspapers as soon as possible, viz:

War Office, June, 1777.

Congress being desirous to make provision for such men as suffer in the military service of the United States, have directed a regiment of invalids to be immediately raised for the reception of such as have already been, or may in future, be rendered by wounds or disorders incapable of doing field duty, but are yet fit for garrison service. Notice is hereby given, that all persons in Philadelphia or within 20 miles round, who are under Continental half-pay, on account of incapacities contracted in the service, must, within fifteen days, repair to Philadelphia, and shew themselves to Col. Nicola, in Front street, four doors below the Coffee house, that if judged capable of duty they may be put on full pay. All other persons who have served in the armies of the United States, within the above description, though not on half-pay, may present themselves, and, if judged capable, they will be immediately received. All such as are above 20 miles from Philadelphia, must apply to the nearest Continental general, field officer, physician or surgeon, who are desired to forward such as they judge fit for the corps of invalids. Officers, who, from wounds or disorders contracted in the service, are rendered unfit for field duty, must signify their pretensions with certificates from Continental physicians or surgeons, to the Board of War. As this corps is intended not only as a provision for disabled officers and soldiers, but as a school for propagating military knowledge and discipline, no officers need apply but such as produce ample certificates of their having served with reputation, and having supported good characters both as citizens and soldiers. Officers and soldiers who have engaged during the war will be preferred."

The customary process of transferring invalid officers to this regiment was upon the order of Gen. Washington or of the

Board of War; there were no promotions of officers so transferred.

The regiment was directed to be disbanded in April, 1783, but it will be seen by reference to the roll herewith presented, that many of the men were not discharged until the close of the year, while most of the officers were paid up to December, 1784.

As the time for which men transferred were enlisted are seldom mentioned in the transfers I cannot ascertain who all in this list were enlisted for the war.

The men marked* were enlisted in this State in the place and at the expense of old men discharged at their own desire all (mutilated). Quere—If the men whose Names , Several men transferred since 1779 may have been enlisted for the war but I cannot tell which or how many of them may have rec'd the bounty of 9 $\frac{1}{2}$ State money in their former reg't.

I presume the men in the reg't. in 1779 and since discharged are entitled to the bounty which was not paid to any of the men in the Invalid reg't. in 1780.

LEWIS NICOLA,,
Col. Inv.

The men marked* were enlisted for the war prior to 1 January 1780 such as are not in the reg't. are specified with the cause of (mutilated).

All the men in the above list not marked with a* were transfer from the Pennsylvania line prior to 1 January 1780 but whether enlisted for the war or not I do not know.

There is some confusion in regard to the Thomas Hunts not distinguished by the No. 1st & 2d on the must. rolls, it does not appear from the reg. book that there were more than 2 Thomas Hunts in the regt. I conclude that the men of that name in Capt. Woelffers & this com'y are the same person, particularly as he is marked in the former deserted 18 Jan., '81, & omitted same month in the latter.
